. Gubernatorial Canvass. The candidates spoke at Pulaski Thursday last to a crowded house, and well did Gen. Brown sustain himself and he flag of his party. Never did we see any man get a more scathing, demolishing exceriation than he dealt upon her ladyship, Col. Wisener, who was only too much complussed to make much of a talk. With such a record as he has, and in the hands of such a gallant leader as Gen. B , he is only a man of straw. The only sympathizers we could see were those who pitte him under the severe lashing he got. AT FRANKLIN they spoke on Friday to a goodly number

As a general thing, emigrants would save money by selling off their atock and all their goods and travel by public conveyance, and buy again when at or near their destination. Across the plains as of old, a sonveyance by ox power is wall; but in a country where every few hours, as it were, you see a sign-board. "Look out for the cars!" it is rather a poor way, and besides oven and stock traveling a great distance over rough roads and gravel become worm out so as to be comparatively useless for a long time after getting through. We have been there, and know whereof we speak.

New York Dry Goods Market. New York, Oct. 22,—Dry Goods—market, as usual at the close of the week, inert and depressed, especially for heavy and fine brown unbleached cottons, brown drills, corset jeans, and better class bleached mustins. Prices at present are irregular, and it must take some days to equalize values. New York Mills muslin, for instance, are being sold at 20c, while Wamsutta command 19c and White Rock 17c, Masonville 16c and Hope 13to. White Spragues, printed calicoes and Gloncester goods sell on the same counter at the same price. Mostly all prints are held at prices that will not invite custom so long as printing cloths are on a down plan, ex-cept Garner's, which are offered as low as cept Garner's, which are othered as low as 1040, and Spragues, which are highly men-tioned this season, and full of live madder colors. Mons delaines are offered in all grades at 17c, and are really cheap, while ginghams remain steady and firm. Amos-keag stripes, 6 by 3, are reduced 1c.

The Danger of Delay.

But few diseases require more attention than Colds and Coughs, and few are more generally neglected. How many persons when they take a cold consider it of he importance, and let it run on, without reflecting a moment on its consequences. Bemember that neglected colds are trequently dangerous, and often result in diseases most difficult to care. A cold in the head preduce a cough, then comes pain in the side, focus, difficulty in breathing, and finally ends in Consamption. Who would suffer from a cold, with a probability of a serious attack of Carieria, Bromen its Indianna, Indiannation of the Lange, etc., whose the efficient preventive, MISHLER'S HERB DITTERS, can be had at a moment's notice? debts of every kind, and the balance to hand to him. And while it is our duty, it will be our pieasure, to obey one instructions. There will be no difficulty in argand to the title. The trustees will release each piece of property so soon as the purchaser complies with the terms of sale. The same course will be pursued in regard to a judgment in court of some SUM. The balance of the property is unencombered, so far as we know: We have airendy money provided to pay most of the unpaid laxes, so that no person need have any doubt about the titles. To the decidiors of Maj. Claiborne, we would say that he has amylo means in land to pay every debt he owns, and have a surphis left for old age. But he is necessarily compelled to sell his lands in order to get his means in a shape with which be can pay, and the proceeds of the sale will runsin in our hands matil every debt is fully paid. And how, while we do not ask charity of any one, we hope, and we believe, that a liberal people, with whom Mr. Claiborne has spent many years of his life, and among whom he has scattered many thousands of deliars in truttless at tempts to establish and build up a system of manufactories, will at least insure us a large crowd on the day of sale (Tuesday, Nov. L). And again permit us to say that we heartily endorse (as we think every calculating man will do) the sentiment of the Rev. Dr Baird in his admirable labor address on the occasion of laying the corner-stone of the manningth agricultural implement manufactory of E. H.
